

Human-level accuracy 5X faster with ProInsight

ProInsight analyzes complete conversations—across phone, email, text and chat - automating compliance and QA processes in a fraction of the time with human-level accuracy.

Turn all of your agents into fully compliant top performers while eliminating collection risks.

- Analyzes calls on 200+ parameters
- Monitors, evaluates, and coaches agents efficiently
- Monitors and analyzes 100% of calls, flags exceptions
- Stores audio and text for calls in one central place
