

Lift agent capacity and focus with ProNotes.

Let agents ditch the menial tasks so they can focus on the conversation and respond to customers' needs.

AI-automated notes save agent time - in and out of calls - and reveal patterns you can use to increase customer satisfaction and accelerate your business.

- Slash after call wrap-time to increase capacity by 15% or more
- Reduce talking and typing to boost customer experience
- Available in English and Spanish
- Real-time notes within seconds, or delivered daily in batches
- Analyze structured, uniform notes to extract actionable insights

Up to:

38%

more calls handled

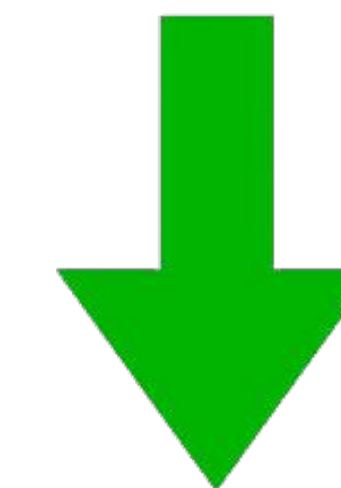

100%

standardized notes

Up to:

80%

reduction in after-call work

AI trained on over 400 million consumer finance conversations and interactions.

"We want to know how customers feel. With Prodigal ProNotes, we're able to surface insights about those sentiments and how we can improve."

-Pran Navanandan, Founder
